Ready, Set, Go!

The Gamification app of Odoo offers you simple and creative ways to motivate and evaluate your employees in the workplace.
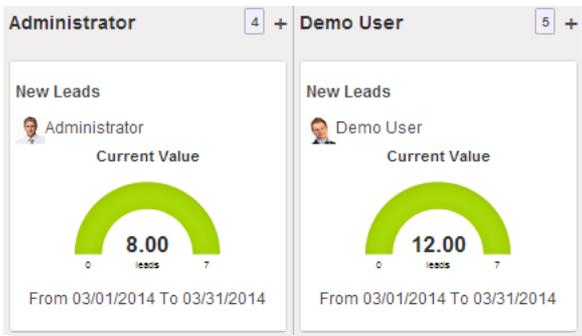

By definition, this app gives you tools to challenge employees to reach specific targets.
Goals are assigned through challenges to evaluate and compare team members with each other and through time.

You can create a template from various examples and choose any form for the challenge, based on your company's needs - such as number of new leads, time to qualify a lead or the total amount invoiced in a specific week, month or any other time frame based on your management preferences.

Challenge Your Employees Effectively
