# Purchase Tenders

Get the best price by negotiating with several suppliers

The screenshot shows a product configuration page for a 'USB Adapter'. It includes a product image, a 'Product Name' field with the value 'USB Adapter', and a 'Category' dropdown set to 'All products / Saleable / Ex'. There are three checkboxes: 'Can be Sold' (checked), 'Can be Purchased' (checked), and 'Can be Expense' (unchecked). Below these are tabs for 'Information', 'Procurements', 'Inventory', 'Sales', 'Accounting', and 'Men'. The 'Procurement Method' is set to 'Make to Stock', the 'Supply Method' is 'Buy', and the 'Cost Price' is '13.00'. Explanatory text is provided for the 'Make to Stock' and 'Buy' methods.

Create purchase tenders, gather and organise quotes from suppliers and compare proposals. Choose the best offer and send purchase orders. Use reporting to analyze the quality of your suppliers afterwards.

Our software helps you with everything.

# Email Integration

Integrate all communication from suppliers into the purchase orders (or RfQs) for strong traceability on negotiation or after-sales service issues. Use the claim management module to track issues related to suppliers.

The screenshot shows an email composition window titled 'Compose Email'. The subject is 'Your Company Order (Ref PO00019)'. The recipients are 'Followers of PO00019 and Seagate <info@seagate.com>'. The email body starts with 'Hello Marc,' and contains a request for quotation from Seagate SA. It includes a 'REFERENCES' section with the following details: Order number: PO00019, Order total: 4290.0 EUR, Order date: 2013-05-02, and Order reference: OP/00002. The email also has an attachment 'RFQ\_PO00019.pdf' and a 'Send' button.

# Import Supplier Pricelists

Make smart purchase decisions using the best prices

Easily import suppliers' pricelists to make smarter purchase decisions based on promotions, quantities and special contract conditions. You can even base your sales price on your supplier's prices.

### Import a CSV File

[Validate](#) [Import](#) or [Cancel](#)

Select the .CSV file to import. If you need a sample importable file, you can use the export tool to generate one.

CSV File:  a.txt

[+ File Format Options...](#)

### Map your data to OpenERP

The first row of the file contains the label of the column

Product	Quantity	Price
Name x	Don't Import	Cost x
PC1	123	12000

## Control Products and Invoices

No product or order is left out; inventory control allows you to manage orders, refunds, product receivals and quality control.

Choose the right method according to your needs: pre-generate draft invoices based on purchase orders and products receivals; create invoices manually and import lines from purchase orders, etc.

## Get Statistics On Your Purchases

Get accurate statistics on your suppliers' performance through flexible reporting: delivery delays, negotiated discounts on prices, quantities purchased, etc. Integrate purchases with analytic accounting to analyze your contracts' profitability.
