

Pools & Spas Depot Implements Odoo

Pools and Spas Depot is a new provider of specialized services for pools and spas. It also acts as a retailer of swimming pools, spas and all other related accessories for major brands in the industry.

**POOLS
& SPAS DEPOT.com**

The logo for Pools & Spas Depot features the text "POOLS & SPAS DEPOT.com" in a bold, blue, sans-serif font. Below the text is a stylized blue wave graphic that curves under the words "DEPOT" and ".com".

Odoo system was installed in very short time without disturbing the company's processes and burden of employees

Pools and Spas Depot is a new provider of specialized services for pools and spas. It also acts as a retailer of swimming pools, spas and all other related accessories for major brands in the industry.

The team of Pools and Spas Depot knows the latest trends on the tips of its fingers and offers ultra-competitive prices through its extensive network. Customers enjoy the substantial volume of purchases offering the best prices on the retail market.

Challenge

Odoo deployment to support operations of Pools and Spas Depot and integration with online store.

- Provide a simple and consistent interface;
- Offer a solution integrating sales, purchasing, accounting, warehouse and online store;
- Streamline and optimize data capture to maximize resources available for business development;
- Deploy the solution before 1 March 2012.

Solution

- Install, configure and secure production and test environment;
- Install and configure the modules of sales, purchases, stock, crm;
- Train users to use the system;
- Coach users for entering data: financial accounts, partners, products;
- Integrate Odoo 6.1 with Magento 1.6 in partnership with Akretion;
- Configure the management of returns and warranties;
- Interact with the UPS API to generate labels and tracking numbers.

Modules provided: Sales, Purchase, Stock Mgt, CRM.

"Savoir-faire Linux has successfully met the challenge of integrating our online store with OpenERP. We particularly appreciated the ease with which Savoir-faire Linux has managed relationships with our technology partner and contributors to the open source community. We are very pleased with the final solution and very proud to be a client of SFL."

Christian Patron, Pools and Spas Depot CEO
