

## **How Bista Solutions Helped Wireless Vision to overcome with its business challenges**

Wireless Vision is the largest retail partner of T-Mobile in USA with more than 200 stores across Central, Eastern and Northern Region and has over 2000+ Employees. T-Mobile is the 3rd Largest Telecom Company in USA. Wireless Vision sells telecom Plans, devices to the end users customers.

# How Bista Solutions Helped Wireless Vision to overcome with the challenges?

Bista implemented and Customised Odoo ERP for Wireless Vision

## ERP Structure and BI Implementation

- ERP was extensively used around the Organization, Bista implemented Sales Commission DSR, Crashing process, warehouse management and Employee Purchase Plan (EPP) for Wireless Vision
- The Sales Commission module and Daily sales reporting made easy for wireless vision to track all the sales orders, daily sales and issue commission to the vendors accordingly.
- Bista Customised and Implemented crashing process which helped Wireless Vision to compare and match their own data with T- Mobile remove the duplicates.
- The Employee Purchase Plan Module incorporated with ERP helped Wireless Vision as well as their employees to apply for mobile purchase and avail the discount offered to the employees.
- ERP is now used as a Single Platform which is integrated with all the Applications (Jasper,ETL)
- BI dashboards helped Wireless Vision in tracking the Profitability of Stores, Markets, Regions and also helped to drill down which part of the Market is lacking in performance or showing less profitability.

## **What was the Impact on Business after Project Implementation?**

Easy, Smooth, Time saving Operations, Increase in Business productivity and visibility
